

EnzyFish Star[®] P100

Description

EnzyFish Star P100 is the use of deep-sea fish as a raw material, using modern advanced biochemical technology to ensure the preservation of active substances.

Specification(Typical analysis)

Appearance Powder

Odor Fish smell

Water solubility 100%

Organic matter 90%

Total Amino acids 85% Min

Organic N 13.5% Min

Total Vitimin 1000ppm Min

Trace elements 1% Min

Fish Source

Mild Enzymatic hydrolysis process

High amino acid and peptide

High organic matter

Benefits

- Promote the soil structure
- Improves the quality of agricultural products
- Increase the utilization of mineral fertilizers in soil
- No residue, improves the physical and chemical properties of soil
- Promotes enzymatic activity as a natural stimulant
- Decreases the incidence of certain plant diseases
- Stimulate activities of soil microorganism
- Increases the protein, sugar and vitamin content in the plant
- Promote photosynthesis of crops
- Fruits grow fast and have good color
- Improves the yield of crops

Application

Soil Application: 5-8KG/Ha

Drip Irrigation and Flush irrigation: 5-8 kg/Ha

Foliar Application: 0.8-1.25 kg/1000 liters water every 15-20 days during the season

* This recommendation may be varied according to the soil characteristics and local conditions.

Package: 20 kg Kraft bags with PE liner,
1 kg、 5 kg、 10 kg foil/PE bag, customized
Sealed well and store in cool and dry place.

Manufacturer & Distribution: Qingdao Future Group
Headquarter: Phoenix Plaza, Qingdao, China.
